

## Machine Specifications

**Crush It** offers a choice of sizes of Red Rhino concrete crusher for hire:

**Red Rhino 4000 Series Micro Crusher** - The smaller of the two machines is perfect for most projects but is also designed to be suitable on sites with limited access. The dimensions of the Micro have been kept small and as such the machine can fit through surprisingly small gaps, even doorways. The compact size of the Micro has also helped to keep the weight down which enables the machine to track lightly over more delicate areas.

**Red Rhino 5000 Series Mini Crusher** – The larger machine is designed for jobs where the input material is larger and there is simply more of it. The 5000 features larger jaws and loading area and is an efficient tool for creating greater volumes of crush.

	Red Rhino 4000 Series Micro Crusher	Red Rhino 5000 Series Mini Crusher
Length	3,100 mm	4,630 mm
Width	770 mm - 1,070 mm - Hydraulic expanding tracks	1,180 mm – 1,600mm with side steps fitted
Height	1,600 mm	1,950 mm
Weight	1,420 Kg	2,750 Kg
Input Size	390 mm x 160 mm	490 mm x 190 mm
Output Size	5 mm up to 70 mm - Instant Hydraulic Adjustment	5mm up to 90mm - Instant Hydraulic Adjustment
Output	anything between 2 - 8 tons per hour <sup>(1)</sup>	up to 18 tons per hour <sup>(1)</sup>
Consumption	1.5 litres of diesel per hour	3 litres of diesel per hour
Dust Suppression	Domestic Hose to fine water spray nozzles on conveyor	Domestic Hose to fine water spray nozzles on conveyor
Conveyor Discharge Height	1300 mm	1800 mm

(1) Output will vary according to jaw setting, input material, loading equipment, loading method and familiarity of operator.
